

HBS 'Perspectives' 4th issue - Special edition Energy crisis in South Africa

by Heinrich Böll Foundation Southern Africa
Tuesday, 29 July 2008

Perspectives: Political analysis and commentary from Southern Africa

'With both South Africa's and the region's energy future at stake, we utilise this issue of Perspectives to bring forward a diverse range of opinions from experts and activists on South Africa's energy crisis and its implications - for neighbouring countries, for ordinary lives and for the development of future energy solutions in the context of a climate constrained world.'
